Special Hauling Permit

All heavy equipment operations using Village roads must obtain an approved "Special Hauling Permit" before starting any hauling. There is a \$160.00 charge for the permit, and the Village of Cadiz Police Department must also be contacted before hauling on Village roads. Checks are to be made payable to The Village of Cadiz. A higher cash amount may be required due to roadway conditions, amount of product to be hauled or poor cooperation from the company. The Chief of Police and the Street Superintendent will determine the cost to repair any road damage found, and bill the company.

Attach a map at a scale of one inch equals one mile. Show the area from which you are hauling on the map using yellow highlighter. Mark in red the Village roads that will be used by your operation. Put the company name on the map, and have the map signed and dated by an authorized representative of the company.

Applicant: _____

Address: _____

Email: _____

Contact Person: _____ Phone: _____

General Location: _____

Street: _____

For: (Load description) _____ Lbs.: _____

_____ Lbs: _____
(Description of carrying vehicle; No. axles, size & no. of tires, pneumatic, etc.)

Provisions of the Special Hauling Permit

1. The applicant will see that a copy of the permit and map will be available for inspection by any representative of the Village of Cadiz when work is being performed in connection with the hauling operation.
 - A. At the site of the operation.
 - B. On any large vehicle using Village roads.
2. The applicant will arrange with the Cadiz Police department to view the location of all driveways to be used for the subject operation. The driveways will be improved or built as directed by the County Engineer. All appropriate permits will be obtained prior to construction.
3. The applicant will provide equipment and personnel at all times to remove mud and other material from the pavement, ditches or pipes carried onto the roadway by the establishment and maintenance of the subject operation.
4. Any area disturbed within the Village roadway shall be seeded by the applicant in such a manner to establish permanent vegetation to control erosion, as directed by the Harrison County Soil & Water Conservation District.
5. The applicant or anyone involved in the subject operation will not park any vehicles, equipment, or supplies within the Village roadway.
6. The applicant will provide signs and other devices to warn the public of the road conditions, such as "Damaged Road Surface Ahead", "Slippery Road Surface Ahead", etc., as directed by the County Engineer.
7. The applicant will notify the Village each time the operation is started or suspended.
8. The posted weight limit on bridges must be strictly observed.
9. The applicant agrees to be responsible for the cost of repairing all damage to Village roadways and roadway structures caused by the operation. The applicant agrees to provide security to the Village if required.
10. Other provisions:
11. List all known contractors that will be working on the subject operation.

I hereby affirm that I am the applicant or authorized representative and that information provided on this permit and attached map is correct to the best of my knowledge and that I will see that the provisions of this permit are carried out.
